Energy

This trait shows where we direct our mental energy.

Nature

This trait determines how we make decisions and cope with emotions.

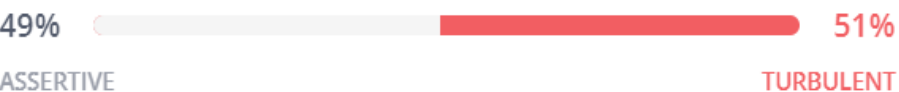

Tactics

This trait reflects our approach to work, planning and decision-making.

Identity

This trait underpins all others, showing how confident we are in our abilities and decisions.

Enneagram personality test:

I am defined by my desire to achieve. I want to advance in the world and will sacrifice almost anything for success; vigorously pursuing tasks and becoming utterly absorbed in the pursuit of attainment. But I will only choose a task in the first place if it promises rewards and brings prestige. I like to stand out I have a burning need to be admired and use life as a game where winning is emphasized.

My current top career job interests

◆ My top 3 careers are:

Insurance sales manager

This would fall under the career cluster of – marketing and sales and business management

Loan officer

This would fall under the career cluster of – business and finance

Travel Agent

This would fall under the career cluster of - travel and tourism

Career cluster and plans after high school

I choose marketing, sales, and business management because this career cluster holds my main career option which is an insurance sales manager. In this career path I would work to provide strategies for increasing sales, develop marketing campaigns and oversee the sales team's progress.

My plans after high school is to go into a 4 year or more college and get my bachelor's degree. Then enter straight into the workforce.

My top job

My top recommended job is a insurance sales manager.

I like this job because I would get to be in charge and its kind of a competition.

Education- for this job I would need a high school diploma and a bachelors degree

Salary- the salary for this job is about \$130,000 a year

Working conditions- I would have to know how to work with people. I have to be smart when it comes to descision making. And I would have to be put together and ready to work. all of these traits I can do

courses
right now
that will
affect
my high
school and
college
future

If I maintain A's and B's I will be eligible for scholarships to help me in high school. A example is the life scholarship which would give me \$5,000 a year for four years

By taking high school credit classes in middle school, I will be prepared for what high school is like so I can perform better there.

By participating in sports i can learn a lot of valluable life lessons and be with people who have some of the same passions as I do.

If I put my best effort into school I will be responsible and on top of things making my high school and college experience a lot easier.

The End
