# Checking for Updates

1. In the bottom left-corner of your desktop, type "Check for Updates" in the search bar.

2. Click the "Check for Updates" button.
3. Allow updates to download. It's best if the computer can be plugged in while these happen.
4. If you are given an option to "Restart", click that button.
5. Repeat Step 1 to ensure that all updated successfully downloaded.
