About ME...

- Born and raised in Summerville, SC
- Educated in DD2
- This is my 18th year of teaching
- BA in Elementary Education from Allen University, Columbia, SC
- M. Ed in Elementary Supervision and Administration from Charleston Southern University, Charleston, SC
- Currently working on Education Specialist Degree in Curriculum, Instruction and Assessment
- I love to teach and I love children.
- I believe ALL students WILL SUCCEED!

I believe the children are the future, so my intent is to teach them well and let them lead the way. Teaching isn't just a job; it's a mission. Our main goal as teachers is to teach the basic academic skills, and I also believe it's important for children to develop good moral character, respect for authority, and respect toward their peers.

Having been an educator since 2002, I have always appreciated the opportunities to communicate with parents and children. I have learned many things having been a student in Dorchester School District Two and even now as an educator in the district. I am fair, a good listener, and problem solver. Any thoughts and concerns regarding your child are very important to me!

I love teaching, but when I'm not teaching, I enjoy watching TV, fellowshiping with friends and family, and shopping for school supplies! I hope to instill the love of World History in your child. Your child will have a great adventure in my room!

My philosophy is to provide an interesting, challenging, learning environment where my students will flourish socially and academically. They in turn can give their best effort in all they do at school. I believe that as a community working together, teachers, parents and school staff can help our students accomplish this.
