

## ABC Geography Information Book

**Objective:** Students will be able to research information about geography using their notes from Units 1-8 and research skills to create a booklet of information.

A: Create a booklet out of paper. (You can put four letters on each page)

B: Write the letter of the alphabet – then fill in the geography term that you have chosen for each letter.

C: Write the definition of each term that you used for each letter

D: Include an example of the term

E: Include an illustration for each term

Expectations:

- You will need to find 26 facts about geography, one for every letter of the alphabet.
- You will create a booklet/pamphlet/visual representation of your information.
- Each page should have a title that starts with the letter of the alphabet, and it needs to go into alphabetical order. The sentences describing the fact needs to be well written, see example.
- No repeating of facts.
- Be Creative! Have fun with this project!

**Example:**
